

## Qrop® KN

### *Related Crops*

Qrop® KN is a nutritional source produced starting from natural raw materials quarried in the northern regions of Chile through an environmentally friendly process.

SQM's Qrop® KN is changing the game in the bulk blending market- offering up a superior source of chloride-free potassium and safe handling nitrate-nitrogen. Its consistent size, compatibility, and reliable supply give bulk blenders and their farmer customers a new tool for success as they face tomorrow's challenges.
